If a Watercourse was Impacted, Describe Fully.\*

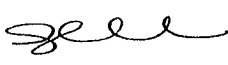

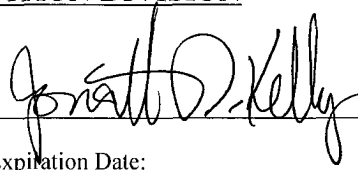

Describe Cause of Problem and Remedial Action Taken.\*

**Repairs were being made on the #1 pump when the suction hose to the #2 pump parted at the hose connection creating a 5 BBL spill of drilling mud. 5 BBL of drilling mud was recovered using a vacuum pump. Hose was removed and put out of service.**

Describe Area Affected and Cleanup Action Taken.\*

The spill was limited to the mud pump area & containment ditches. COPC will assess the soil and determine a path forward for clean-up, if necessary. **A COPC third party contractor was responsible for the clean up of this spill. The drilling mud was removed using a vacuum truck. During a follow up site visit no staining or crusting was observed on location. Therefore, no further action was taken.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
