13. Describe Proposed or Completed Operations

Schalk Development previously proposed to repair this well by installing a string of 2-7/8" pipe inside the existing 4-1/2" casing. This work would require the use of 1-1/4" MT drill pipe for clean after cementing. We have found out this drill pipe is not available for rent in the Farmington area. We request a 6 month extension to continue producing the well and time to arrange for a string of drill pipe. Please note this well is located in the Forest closure area.
