- 13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

XTO Energy, Inc. requests approval to DHC this well per NMOC Rule 19.15.12.11 C(2) in the Basin Dakota (71599) & the Kutz Gallup (36550) in the EH Pipkin #5E. XTO Energy, Inc. proposes to downhole commingle these pools upon completion of this well. Please see the attached spreadsheet for justification of the following proposed allocations.

Allocations are based upon a 9-section EUR and are calculated as follows:

Basin Dakota	Gas: 30%	Water: 28%	Oil: 1%
Kutz Gallup	Gas: 70%	Water: 72%	Oil: 99%

RCVD OCT 31 '12
OIL CONS. DIV.
DIST. 3

Pools are in the NMOC Pre Approved Pool combination for downhole commingle in the San Juan Basin. Ownership is common in all zones; therefore, there are no owners to notify of our intent to DHC. Downhole commingling will offer an economical method of production while protecting against reservoir damage, waste of reserves & violation of correlative rights. NMOC was notified of our intent via Form C103 on 10/26/2012.

DHC 3726 AZ
