13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depth for all markers and zones pertinent to this work.)*

The above referenced well has not been producing because the pump jack and base required repair. Roddy Production is currently performing these repairs. The well may also need the rod pump replaced. Roddy Production will return the well to producing status by approximately July 25, 2005. This action has been delayed until this time, due to inclement weather and equipment availability. This plan of action is proposed to address Item 3 of the letter dated June 16, 2005, from Mr. Steve Mason, Bureau of Land Management, Farmington Field Office.

14. I hereby certify that the foregoing is true and correct
