Coleman Oil & Gas, Inc. requests permission to change the meter point of custody transfer on the surface commingles for natural gas. We would like to change the point of custody from Juniper CPD #1 El Paso CPD Meter #98-708-01 to Juniper CPD #2 El Paso Meter #85-645-01. The reason for the change is to make use of compression that is not at capacity and reduce the load on the compressor that is maxed out on volume. The change would take place on the end of the month following approval of this sundry followed by approval to the revised surface commingle.

14. I hereby certify that the foregoing is true and correct.
