13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

**RCVD NOV 7 '12  
 OIL CONS. DIV.  
 DIST. 3**

During the drilling operations we found the wellbore had deviated @ 140' north of vertical at 2105' which makes this well NSL. On 11/5/12 Charlie (OCD) gave us permission to use direction tools to steer the well back to vertical. Since the wellbore had deviated so much, we requested that we set the intermediate 7" casing lower than originally planned. We need to set the intermediate casing at approx. 3800' TVD. 11/6/12 Charlie Perrin (OCD) gave us verbal approval to set the casing deeper, but requested that we inform him of the deviation shot at the intermediate TD before we set the 7" casing. We will be required to also shoot a survey at the wellbore TD and report the results.
