Describe Cause of Problem and Remedial Action Taken.\*

Enterprise measurement department was notified by foreign operator of gas leak and stained soil at the Howell M#1 A meter tube location. Measurement dept. notified area Tech to respond. Upon arrival, Enterprise Tech shut in meter tube and applied lock out tag out (LOTO).

Describe Area Affected and Cleanup Action Taken.\* At the time of this report, approximately 5 yards of condensate/produced water impacted soil has been hand excavated from the location for disposal at an OCD permitted land farm facility. A "final" c-141 report attached to a third party environmental corrective action report will be submitted once cleanup activities have been completed to NM OCD standard.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
