13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or to recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Resource Development Technology, LLC does hereby recognize the receipt of the Demand to Promptly P&A or Repair & Return-to-Service the Salazar 'G' Fed. 22- #1 Well dated 08/23/2005. RDT expects to pick up an A-Plus Rig for the purpose of repairing & returning-to-service the Subject Well. We expect to have the rig at work continuously from Oct. 31st until work is completed.

The proposed work would include:

1. PU a Packer & Plug & determine casing integrity. If an integrity problem is found then develop a plan with the NMOCD & BLM to repair the casing and return the well to service.
2. Re-equip the surface facilities. Return the well to paying production. Re-Stimulate if necessary.

RDT requests a Period of 6 months to accomplish all of this. Based on the records RDT is unaware of any actual down-hole or casing problems but wonders at why Merrion Oil & Gas Corp. (the previous Operator) removed all of the Surface Production Eqpt.

14. I hereby certify that the foregoing is true and correct
