Waller #1B

Unit letter P, S11, T32N, R11W, San Juan County, NM

Drill ground bed approximately 105' southeast of #1A wellhead at staked location. A 40-16 two-lug rectifier is in place at the entrance to the location. Use the negative wire that went to the #100S, which has been P&Ad, and splice & trench from vicinity of the #100S to the #1B. If possible, locate the old groundbed, which has been stripped, and connect it and the new groundbed to the existing positive wire in the vicinity of the new groundbed. Repair cables as needed.

#1B Cables:

Negative: 105'

Positive: 15'

Total Ditch: 120'
