13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once Testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Attached is a drawing for the placement of the cathodic ground, rectifier and cable for the subject well.

San Juan 28-7 #154F

Unit letter p, S17, T27N, R07W, Rio Arriba County, NM

Drill ground bed approximately 120' southwest of #154E wellhead at staked location. Install a 40-16 rectifier at staked location and connect to the #154F and #154E wellheads and groundbed. Tie-in to existing UGAC at location entrance (may require crossing an Enterprise line); repair cables as needed.

#154F Cables:

Negative: 300'

Positive: 20'

A/C: approx 120'

Total Ditch: 320'
