If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

BLM has required that the pumpjack be washed and cleaned: All liquids will be caught in a plastic lined hole, sucked out by a vacuum truck and disposed at a permitted disposal site.  
Hydrocarbon impacted soils will be excavated and disposed at a permitted disposal site.  
Sampling and re-sampling of impacted areas will occur.  
The well pad will be re-contoured so that flow from any release will move to the west side of the well pad.  
A drainage and silt trap will be established on the west side of the well location.  
The access road will have material brought in from the BLM Leased EDCO Chavez pit, N M Permit #128870.  
The access road will be brought back to BLM Standards.  
The motor will be repaired to stop the leak.
