13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

WPX Energy requests authorization to flare this well due to the inability to flow the gas through a pipeline. WPX anticipates for the well to flow to the Williams Midstream H-29 Pipeline, which has not been constructed yet. Williams has received right-of-way from the State of New Mexico and are awaiting approval on the right-of-way from the BLM. Williams will not have completed construction by the time the initial flare approval expires (11/25/14). As a result, WPX is requesting flare authorization for this well until the anticipated date (12/15/14) of the H-29 pipeline completion.
