NATURE OF RELEASE

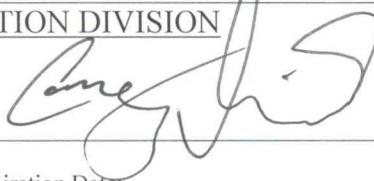

Type of Release produced water from the wellhead	Volume of Release 17 bbl	Volume Recovered 8 bbl
Source of Release polished rod liner not tightened on polish rod after pump was replaced	Date and Hour of Occurrence 8/5/15 3:30 PM	Date and Hour of Discovery 8/6/15 9:00 AM
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom? N/A	
By Whom? N/A	Date and Hour N/A	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	
If a Watercourse was Impacted, Describe Fully.* N/A		

Describe Cause of Problem and Remedial Action Taken.*
The polished rod liner was not tightened on the polished rod after the rig was done replacing the pump. Caused by human error. The polished rod liner was tightened. A water truck was brought in to recover produced water.

Describe Area Affected and Cleanup Action Taken.*

- A water truck recovered 8 bbl of produced water.
- No fluids migrated off the location.
- A five-point composite sample was collected from within the impacted area on August 12, 2015. Sample was laboratory analyzed for BTEX (8021), TPH-GRO/DRO (8015), and chlorides. Laboratory report should be available by on Monday, August 24, 2015.
- If laboratory results exceed NMOCD cleanup standards based on site ranking, impacted soils will be excavated, and the area will be re-sampled to confirm that NMOCD cleanup standards have been met. The excavated soil will be disposed of at an approved commercial landfarm in accordance with NMOCD regulations.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
