13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once Testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

To follow up the phone conversation between Tripp Schwab (Agent for SG Interests) and Steve Mason (Farmington BLM), Lease NM24964 is scheduled to expire on Nov 1, 2005 and SG is requesting a 90-day extension to allow for installation of a gathering system and compressor station. BLM ROW's and required approvals have been obtained; all equipment has been purchased; and construction is planned prior to year-end. In addition, APD's for two new wells on this same lease have been approved, and drilling/completion of these wells is anticipated before the end of 2005. SG intends to establish production in January, 2006.
