RE: Giant Refining Company, Bloomfield Refinery
EPA ID# NMD089416416
Mechanical Integrity Test
GW-130

Dear Mr. Price,

Please find enclosed the documentation for Giant's annual Mechanical Integrity Test as per our discussion during your September 22, 2005 visit. If these documents satisfy your requirements, I will forward them to the Aztec OCD office.

If you need additional information, please contact me at (505) 632-4161.

Sincerely,

Cindy Hurtado

RE: Annulus Pressure Test for Waste Disposal Well 1
Subsurface Project No. 70F5781

Dear Randy:

The annulus pressure test for Waste Disposal Well 1 was performed on September 20, 2005. The annulus was pressurized using the facility well annulus monitoring system and then isolated from the pressure source. The official annulus pressure test began at 1515 hours at a pressure of 344.28 pounds per square inch gauge (psig). The tubing pressure at the time was 883.48 psig. After 30 minutes, the annulus pressure was 344.75 psig. This represents a change of 0.47 psi, or 0.14%, which complies with the New Mexico Oil Conservation Division's (New Mexico OCD) allowable of 10% per 30-minute test period.

During the annulus pressure test, the gauge monitoring the 8-5/8-inch by 5-1/2-inch annulus was removed and the valve opened to the atmosphere. No pressure or fluid was observed exiting this annulus during the test.

Monica Kuehling, representing the New Mexico OCD's Aztec office, was on site and witnessed all portions of the testing.

The annulus pressure test data are presented as Attachment I. A graphical representation of the pressure data recorded during the annulus pressure test is presented as Attachment II. The pressure gauge calibration certificate is presented as Appendix III.

Please forward one copy of this letter to New Mexico OCD's office in Santa Fe and one copy to New Mexico OCD's office in Aztec. Upon receipt of the results of the annulus pressure test by the New Mexico OCD, all requirements for the 2005 mechanical integrity testing on Waste Disposal Well 1 will have been satisfied.

Mr. Randy Schmaltz
Giant Refining Company

Should you have any questions or need additional information, please contact me at (713) 880-4640 or via email at lmcdonald@subsurfacegroup.com.

We appreciate the opportunity to have performed the mechanical integrity testing and look forward to working with Giant on future testing projects.

Sincerely,

Calibration Certificate

Model: SDS3000

Cal. Date: 02/18/2005

Serial#: 6493

Certificate #: 141

Specifications

Calibration Pressure Range: 1,500 PSI

Pressure: Accuracy (0.3600 PSI (0.024)%FS)

Calibration Temperature Range: -40.00 to 60.00 (C)

Temperature: Accuracy (C) (0.15) %FS)

Calibration Summary

Pressure: Accuracy (Maximum Error) 0.16PSI (0.0107) %FS

Temperature: Accuracy (Maximum Error) (C) 0.04

Traceability Statement

All working standards are traceable to national or internationally recognized standards.

Mechanical Integrity Test
GW-130

Dear Mr. Price,

Please find enclosed the documentation for Giant's annual Mechanical Integrity Test as per our discussion during your September 22, 2005 visit. If these documents satisfy your requirements, I will forward them to the Aztec OCD office.

If you need additional information, please contact me at (505) 632-4161.

Sincerely,

Cindy Hurtado
