	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back		

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.

BP America submitted Application for Permit to Drill the subject well on 07/15/05. The APD was approved on 09/26/05.

BP America respectfully requests permission to change the depth of the intermediate string (7") casing from 3099' TVD to 4456' TVD & 4558' MD. The purpose of this deeper setting is to protect the air drilled 6 1/4" section from water influx from the wet Cliffhouse formation in this area. The 7" string consists of 20# J-55 STC from 0' - 4000' MD and 23# N-80 LTC below 4000' MD.

Should you have any questions please call Harald Jordan @ 326-9202.

Adjust cement volume to ensure circulation to surface.

14. I hereby certify that the foregoing is true and correct
