13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Pursuant to conversation of Stephen Mason, Petroleum Engineer, United States Department of the Interior, Bureau of Land Management and Thomas W. Erwin, Senior Production Engineer for Lance Oil & Gas regarding BLM letter dated December 19, 2005, (your file: NMSF-079968 et al. (WC) 3162.3-2 (21110)), Lance Oil & Gas Company, Inc. continues to inject produced water into this well. Since our acquisition of Richardson Operating's properties in October, 2004, these volumes were reported incorrectly on C-115 reports to the New Mexico Oil Conservation Division. These reports have been amended and resubmitted to the New Mexico Oil Conservation Division on January 10, 2006. Please advise if the records do not adequately reflect these changes.
