13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Follow up to "Plan of Action" for production restoration of non-producing wells originally submitted March 30, 2005 and approved by BLM April 5, 2005.

The original proposed plan was regrettably unobtainable. We, therefore, seek BLM approval of a new plan.

Beginning February 2006, we propose to evaluate an average of eight (8) wells by either:

- a) restoring to a useful function
- b) temporarily abandon
- c) plug and abandon
