13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Reference DHC 1986AZ approved 09/12/05, Completion Report filed on 01/31/2006, indicated that it was our intent to produce the subject well in the Fruitland Coal (FC) in order to establish a decline rate for the FC, then drill out the CIBP and downhole commingle production with the Pictured Cliffs (PC). However, due junk downhole (reference subsequent report filed with completion report) the PC will remain Temporally Abandoned (until final abandonment of the wellbore). The PC is isolated with CIBP set @ 2320, therefore, the corrected PBTD is 2320'.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
