RE: Pit Closure at the San Juan 32-8 Unit #4 Well

Dear Mr. Wirtanen:

The New Mexico Oil Conservation Division (OCD) has reviewed the pit closure report for the Phillips Petroleum Company (Phillips) San Juan 32-8 Unit #4, K-15-32N-08W, San Juan County, New Mexico. The closure report was submitted under a cover letter dated January 2, 2002. The separator pit closure for the San Juan 32-8 Unit #4 is approved.

The original letter and closure analysis will be forwarded to the other reviewers with a copy of this approval.

Please be advised OCD approval does not relieve Phillips of liability if remaining contaminants are found to pose a future threat to surface water, ground water, human health or the environment. OCD approval does not relieve Phillips of compliance with other federal, state, tribal or local laws and regulations.

Yours truly,

Denny G. Foust  
Environmental Geologist  
Deputy Oil & Gas Inspector
