BP America Production Company respectfully requests permission to downhole commingle the existing Blanco-Mesaverde and Blanco Pictured Cliffs formations in the subject well.

The Blanco-Mesaverde (72319) & Blanco Pictured Cliffs (72359) pools are pre-approved for DHC per NMOCD Case No. 12346; Order No. R-11363 effective 4/26/2000. The interest owners are identical between these two formations, therefore notification is not required. Please see attached Land Letter.

Production is proposed to be allocated based on the subtraction method using the Mesaverde projected future decline. That production will serve as a base for production subtracted from the total production for the commingled well. The balance of the production will be attributed to the Pictured Cliffs.

Commingling production downhole in the subject well from the proposed pools will not reduce the value of the total remaining production.

Please see attached DHC procedure, wellbore schematics, and C-102 plats. BLM Notified via 3160-5 form for Federal Lease NMNM0606.
