NATURE OF RELEASE

| | | |
|---|---|---|
| Type of Release: Fire/ Minor liquids | Volume of Release: N/A | Volume Recovered: N/A |
| Source of Release: Antifreeze line fitting failure | Date and Hour of Occurrence: 03/09/16 @ 10:15 PM | Date and Hour of Discovery: 03/09/16 @ 10:15 PM |
| Was Immediate Notice Given? – Upon <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required | If YES, To Whom? Katherina Diemer (BLM-FFO) and Cory Smith (NMOCD) | |
| By Whom? Chris Foeller | Date and Hour: 03/10/16 5:38 PM and 2:20 PM | |
| Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No | If YES, Volume Impacting the Watercourse. | |

If a Watercourse was Impacted, Describe Fully.*
N/A

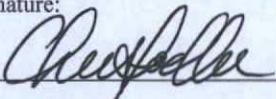

Describe Cause of Problem and Remedial Action Taken.*

At approximately 10:15pm a fitting in the antifreeze system failed, causing antifreeze to drip on the compressor turbo/manifold. The antifreeze ignited and caught the insulation on fire. The fire was immediately spotted by WPX night crew personnel. The WPX employees shut the compressor off and extinguished the fire in 25-30 minutes after several rekindlings of the insulation. Ethylene glycol was either consumed or vaporized, estimated to 10-20 gallons. No injuries.

Describe Area Affected and Cleanup Action Taken.*

- No injuries.
- Fire lasted for an estimated 0.5 hours.
- Minor amount of fluids released from compressor engine fluid reservoirs.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
