13. Describe Proposed or Completed Operations

While reviewing the subject well for a workover to remove the packer & commingle the well we found that it truly was completed in the Pictured Cliffs sands and Fruitland Sands intervals as well as the Mesaverde. There are perforations below and above the Basil coal on this well. Since the interest ownerships are the same for the FS and PC in this interval we want to go ahead and submit a C102 plat for the Pictured Cliffs and when approved we will file for the C107A to trimingle this well with the FS/PC/MV intervals.

See the attached plat for the Albino Pictured Cliffs.

CONDITIONS OF APPROVAL
Adhere to previously issued stipulations.

14. I hereby certify that the foregoing is true and correct.
