13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BIYA Operators Inc. respectfully requests permission to build a tank battery at the HGU 146 Well. BIYA Operators would like to eliminate the long flow line from the HGU 146 to the C battery manifold and to the HGU A battery in section 34. This will reduce the possibility of line leaks. This Tank battery will be built per our SPCC requirements and we will use Best Management Practices. We will lay a layer of base at the site, laydown a 30 mil liner on base. A layer of gravel will be laid on top of liner. We will set a 300 barrel oil tank. Either a steel containment berm or an earthen containment berm will be constructed around the tank and the berm will be built to hold 125% of the volume of the 300 Bbl oil tank.

OIL CONS. DIV DIST. 3

JUL 11 2016

14. I hereby certify that the foregoing is true and correct. Electronic Submission #343829 verified by the BLM Well Information System For BIYA OPERATORS INC, sent to the Durango Committed to AFMSS for processing by TRACEY AYZE on 07/05/2016 (16TA0920SE)

HGU 146

Proposed HGU 146
Tank Battery Site

115 Ft

The image is an aerial photograph of a desert environment. The terrain is sandy and dotted with dark, scrubby vegetation. In the center-left, a green circle marks the 'Proposed HGU 146 Tank Battery Site'. A black line extends from this circle to the right, ending at a small, dark, rectangular structure. The text '115 Ft' is placed above this line. The background shows concentric circular tracks in the sand, suggesting vehicle movement. The overall color palette is brown and tan, with dark green patches of vegetation.
