	<input type="checkbox"/> Change Plans	<input type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	<b>Historic Reclamation</b>
	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomplate in a new interval, a Form 3160-4 must be filed once Testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

**Burlington Resources completed the corrective reclamation, described in the attached BLM letter dated 2/11/2014, for the subject well on 3/30/2016. Please schedule a field inspection to verify that Burlington Resources has met the BLM requirements for this reclamation work.**

## BUREAU OF LAND MANAGEMENT

Farmington Field Office  
6251 College Blvd. Suite A  
Farmington, NM

In reply Refer To:  
NMF0100(3162)

February 11, 2014

Gentleman:

On December 19, 2013 the Farmington Field Office, Bureau of Land Management conducted a field inspection on the Schumacher #8, 990FNL & 990FEL, Section 17, T30N. R10W, lease number SF-077764 to evaluate the success of the final reclamation for this well site. According to our records this well was plugged on April 7, 1994. Conditions of Approval (COA's) attached to the approved Notice Of Intent to Abandon required that the well location and access road be reclaimed within one year of the plugging date. The results of our inspection are as follows:

- 1) No contouring of location or reclamation to access road.
- 2) No apparent disking or seeding to location.
- 3) High off road traffic on location.

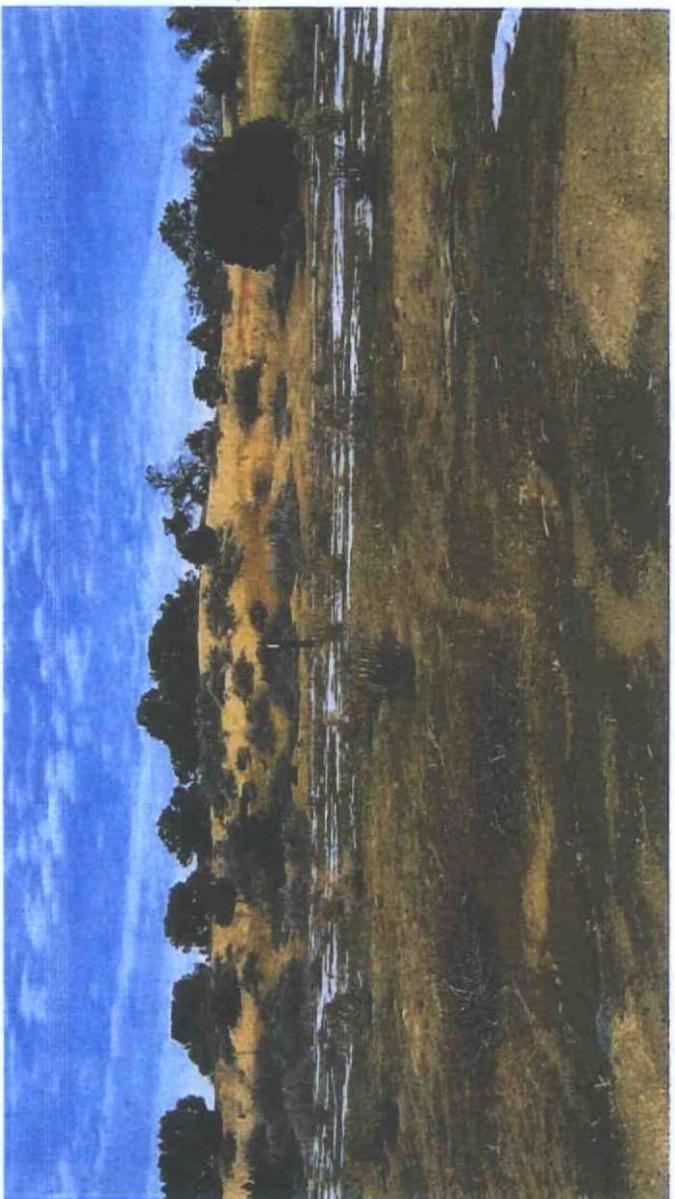

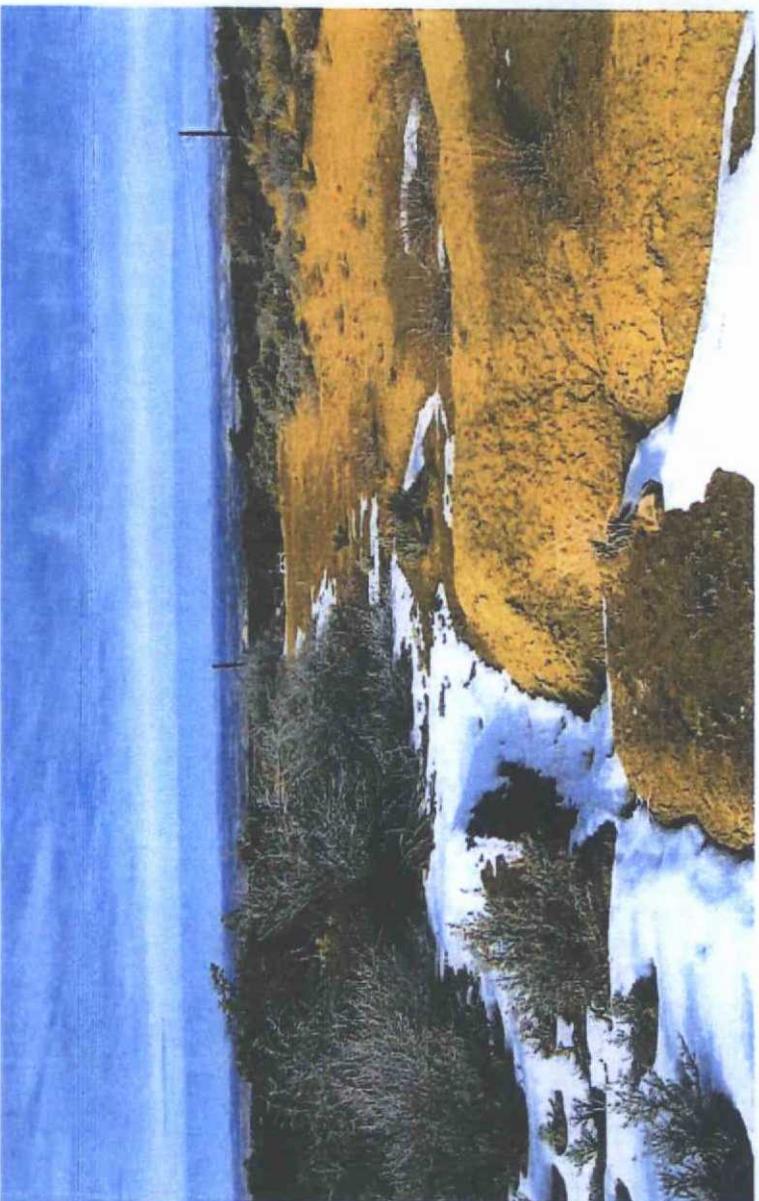

Please notify this office after remedial actions have been performed.

If you have any questions or need additional information, please contact Ty Swirin at (505) 564-7701 or by email at [tswirin@blm.gov](mailto:tswirin@blm.gov).

Sincerely,

Mark Kelly  
Branch Chief, Lands & Environmental Protection
