Gentleman:

On July 11, 2014 the Farmington Field Office, Bureau of Land Management conducted a field inspection on the **Fullerton Federal 7, 1690FSL & 1730FWL**, Section 11, T27N. R11W, lease number NMSF-078094 to evaluate the success of the final reclamation for this well site. According to our records this well was plugged on January 12, 1988. Conditions of Approval (COA's) attached to the approved Notice of Intent to Abandon required that the well location and access road be reclaimed within one year of the plugging date. We are sending back to you the Sundry Notice requesting a FAN on this well because of the following inspection results:

- 1) Concrete pad with associated pipe on south side of location.

Please notify this office after remedial actions have been performed.

If you have any questions or need additional information, please contact Ty Swirin at (505) 564-7701 or by email at [tswirin@blm.gov](mailto:tswirin@blm.gov).
