Historic Reclamation

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 must be filed once Testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Burlington Resources completed the corrective reclamation described in the BLM letter received 4/2/2015, for the subject well on 2/26/2016. Please schedule a field inspection to verify that Burlington Resources has met the BLM requirements for this reclamation work.

Gentlemen:

On March 12, 2015 the Farmington Field Office, Bureau of Land Management conducted a field inspection of the Huerfano Unit #143, 1650FSL & 1650FEL, Section 9, T26N. R09W, lease number NMSF-078000 to evaluate the success of the final reclamation for this well site. According to our records this well was plugged on January 19, 1995. Conditions of Approval (COA's) attached to the approved Notice Of Intent to Abandon required that the well location and access road be reclaimed within one year of the plugging date. The results of our inspection are as follows:

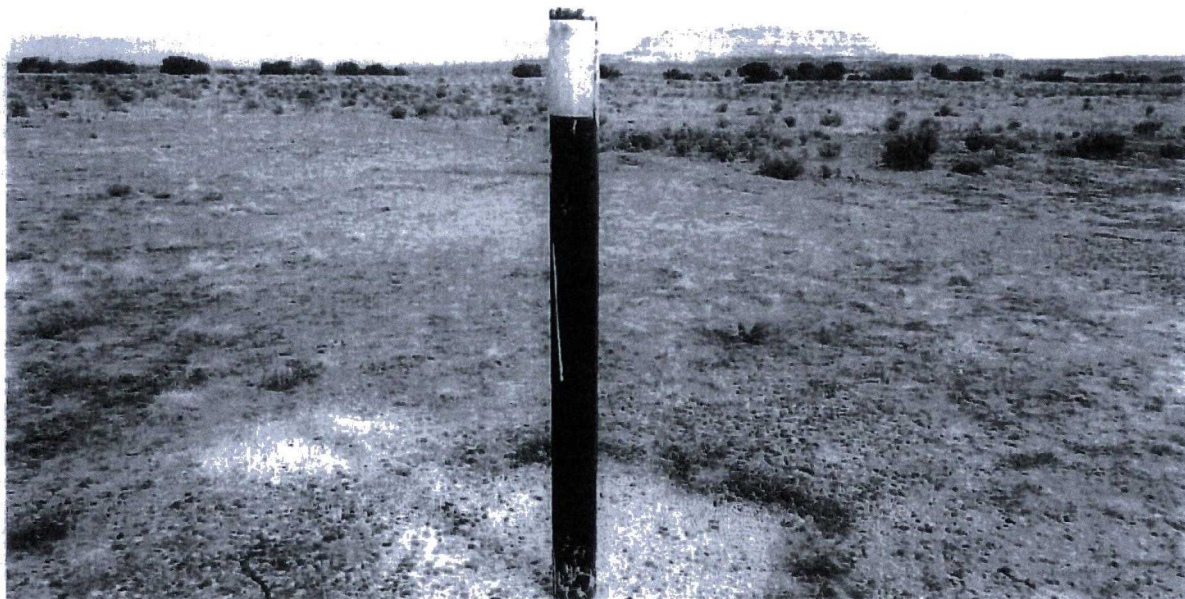

- 1) No reclamation has been performed on this location.
- 2) Access open, embedded and severe erosion in places.

If you have any questions or need additional information, please contact Ty Swirin at (505) 564-7701 or by email at tswirin@blm.gov.

Sincerely,

Mark Kelly
Branch Chief, Lands & Environmental Protection
