**Re:** Bradenhead Test Failure

**Well:** Jicarilla 153 #3, UL D, Sec 26, Tw 26N, Rge 5W, API # 30-039-06333

**Certified Mail Return Receipt: 7015 0640 0007 1331 3667**

Dear Ms. Notor:

The 2016 Bradenhead test on the above well indicates a failure. To comply with Rule 19.15.16.11, prevent waste and protect fresh water, you are hereby directed to submit a plan of action before **November 20, 2016**, and initiate remedial activity before **January 20, 2017**. Initial Surface Casing psi was 49. Initial Production Casing psi was 104. Five-minute shut in pressure was 17.

The Gas analysis was received July 29, 2016. The gas analysis shows the bradenhead gas and production casing gas have the same composition.

Reference: RBDMS MPK1628740252 on future correspondence for this issue.

Notify the Aztec OCD 24 hours before work is initiated.

If you have any questions, please call me at 505-334-6178, ext. 116.

Sincerely yours,

A handwritten signature in cursive script that reads "Brandon Powell".
