Gentleman:

On December 23, 2013 the Farmington Field Office, Bureau of Land Management conducted a field inspection on the Turner #7, 790FNL & 1810FEL, Section 13, T30N, R10W, lease number NMSF-078128 to evaluate the success of the final reclamation for this well site. According to our records this well was plugged on January 9, 2004. Conditions of Approval (COA's) attached to the approved Notice Of Intent to Abandon required that the well location and access road be reclaimed within one year of the plugging date. The results of our inspection are as follows:

- 1) Entrance to location and old access road has no vegetation.
- 2) Traffic driving old access road.

Please notify this office after remedial actions have been performed.
