13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

XTO Energy Inc. received verbal approval on 11/02/16 from Brandon Powell/NMOCD @ 4pm and 11/03/16 from Troy Salyers/BLM @ 11am to perform a casing repair on this well. We plan on setting a CIBP below the leak and squeeze using a cement retainer set ~50' above the leaking interval. The plan is to pump 150 sks cement (100 sks neat and 50 sks with 2% CaCl2 on the side). After letting the cement set for 24 hrs, we'll drill out to CIBP and test casing (MIT) to 550 psig and chart it.

14. I hereby certify that the foregoing is true and correct. Electronic Submission #356959 verified by the BLM Well Information System For XTO ENERGY INC, sent to the Farmington Committed to AFMSS for processing by JACK SAVAGE on 11/14/2016 (17JWS0009SE)
