WPX Energy Production, LLC is requesting to set permanent facilities on the N Escavada Unit 311H and 312H well pad. A site visit was conducted on January 8, 2018 with Randy McKee to discuss facility layout and placement. Facilities on location aside from the wellhead equipment would consist of one gas lift skid. Concurrently, WPX and BLM decided these facilities would be located near the northeast corner of the well pad on the south side of the access road. Please see the attached well pad diagram.
