13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

After reviewing the Jicarilla 457-04 SJ #2, Black Hills Gas Resources will not pursue drilling the well. Therefore, BHGR request to cancel the Application for Permit to Drill. Furthermore, the Jicarilla 457-04 SJ #2 well was permitted to be co-located with the existing Jicarilla 457-04 #2 (API 30-039-25780) which is still an active well. No additional surface disturbance was performed to accommodate the Jicarilla 457-04 SJ #2.
