13. Describe Proposed or Completed Operation (clearly state all pertinent details including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths or pertinent markers and sands. Attach the Bond under which the work will be performed or provide the Bond No. on file with the BLM/ BIA. Required susequnet reports shqll be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in anew interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notice shall be filed only after all requirements, including reclamantion, have been completed, and the operator has determined that the site is ready for final inspection.)

Devon Energy proposes to perform the following work on the subject well:

**MIRU service unit**

Remove rod string and production tubing

Remove uncemented production liner and tag for fill.

If any clean out work is necessary, we will flow into a flowback tank.

Reinstall production tubing and rod string

Produce well from the openhole interval

A daylight rig package will be utilized and time to complete job is estimated at 3 days

## **Conditions of Approval: Notice of Intent to Recavitate**

Devon Energy Production Company  
NEBU No. 418  
825' FSL & 950' FWL  
Sec 28-31N-7W

- 1) Refer and adhere to the original permit requirements and the following:
  - a) All workover pits will be fenced during the recavitation operation and fenced closed after the completion of the work.
  - b) Pits must be lined with 12 mil, or greater, reinforced liner.
  - c) All coal fines must be confined to the pit. Any off location spray of coal fines must be immediately washed down with fresh water.
  - d) Pits must be reclaimed within 90 days of the completion of the workover operations.
- 2) Notify the Farmington Filed Office Inspection and Enforcement Division @ (505) 599-8907 within 24 hours prior to commencing well bore recavitation operations.
- 3) Prior to commencing recompletion operations, BOPE must be installed and tested in accordance with the requirements outlined in Onshore Order No. 2.
- 4) Within 30 days of completion of the operations as proposed, file one original and three copies of Sundry Notice (form 3160-5) detailing the work conducted.
