Re: NEBU 455A - API #30-045-32249

Mr. Steve Mason,

Handwritten initials: H

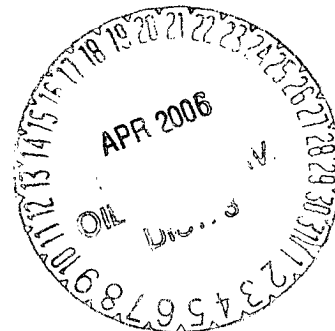

The location for the above well has been built as per the location on the C-102 submitted in March of 2005. It has been brought to our attention that the original APD for this well had been canceled on September 30, 2005; subsequently our office overlooked the extension sundry for said well. We have inadvertently built location, drilled, and completed this well under the assumption that it was still a valid APD. At this time we would like to rectify this situation.

Please feel free to contact me with any questions or comments.

Sincerely,

Melisa Zimmerman
Devon Energy Production Company, L.P.

After due consideration, FTO reinstated the APD. Devon has historically been in compliance w/ BLM regulations.
