13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompletable horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

The Florance 098 well plug and abandonment was completed on 03/31/1994. This well location underwent full reclamation work. On August 30, 2017 BLM Representative Randy McKee and BP Representative Sabre Beebe visited the location to discuss Final Abandonment completion. All reclamation meets BLM requirements for Final Abandonment. Mr. McKee concurred that the location meets BLM requirements for FAN on the 30th. Therefore, BP is requesting final approval of FAN on the Florance 098 well pad.  
Should you have any questions or concerns regarding this well please contact Sabre Beebe at 970-779-9398 or sabre.beebe@bpx.com
