13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

The Horace F McKay 001 well was plugged and abandoned on 1970 as a dry hole. During an onsite on 5/3/2018 BLM Representative Randy McKee and BP Representative Sabre Beebe agreed that this location meets all BLM requirements for Final Abandonment. Therefore this sundry is for approval of Final Abandonment on the Horace F McKay 001 well

Should you have any questions or concerns regarding this well please contact Sabre Beebe at 970-779-9398 or sabre.beebe@bpx.com
