13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Encana Oil & Gas (USA) Inc. (Encana) plans to remove the cellar ring and cut the conductor pipe approximately 6-feet below grade. Approximately 3-yards of NMDOT spec flow fill concrete, which contains 50 lbs of cement per cubic yard at 50-150 PSI, will be utilized to fill the remainder of the conductor pipe to the surface prior to the reclamation of the well pad. Encana will adhere to the specifications contemplated in the Reclamation Plan submitted as Appendix A in the SUPO, provided in the APD submitted to the BLM on February 12, 2014.

x APD will expire by 06/30/16
