13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

The LV Hamner B1 well was acquired from DJ Simmons and scheduled for P&A. Since Mustang Resources, LLC purchased this well we would like to flow test the well under commingle approval being submitted currently to determine if the well is economical prior to P&A. This well currently has no tubing in hole. Mustang is requesting approval to produce the well without tubing in the hole for 60 days while determining economic viability of the well.
