13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

BP has P&A'd the Gallegos Canyon Unit 516 well co-located with this well. As a part of decommissioning the equipment for the P&A'd well, the compressor on site will be removed. The meter run for the active well will be re-piped to run directly into the sales line. The meter measuring the combined gas volume on the downstream side of the compressor will be removed.

A C-103 subsequent report of well plugging will still be required for the GCU #516 for final release.
