13. Describe Proposed or Completed Operation (clearly state all pertinent details including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompletable horizontally, give subsurface locations and measured and true vertical depths or pertinent markers and sands. Attach the Bond under which the work will be performed or provide the Bond No. on file with the BLM/ BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletable in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notice shall be filed only after all requirements, including reclamantion, have been completed, and the operator has determined that the site is ready for final inspection.)

Four Star Oil & Gas Company received approval 02/26/04 to recompletable this well into the Fruitland Coal and downhole with the Blanco Pictured Cliffs. Four has now scheduled the work for this procedure.

While in the well, Four requests to deepen the well within the production casing from 2123' PBDT to 2181'.

The deepened section will not be produced but will allow the pump to be set deeper and avoid picking sand and other materials in the well bore, thus reducing the need to pull and clean out the pump.

CONDITIONS OF APPROVAL

Adhere to previously issued stipulations.
