Non Bid Wells Plugged:

- The following 9 wells were found and plugged as substitutes for the above wells that we were unable to find and/or verify the exact well names.
- The original bid for the referenced contract included a Well Bid Summary where the wells were priced out individually. Obviously, the substitute wells were not included and do not have a "bid" price. To equitably determine the cost to plug these 9 wells, a bid price for an equivalent type of well (casing size, sacks of cement, number of perforations) is charged in the following.
- To enable the efforts of the NMOCD representatives to find and identify wells, A-Plus Well Service with instructions to include the cost in this invoice purchased a metal detector on February 11, 1997.
