13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

We will be running a common flowline to the following locations that will allow us multi-well compression. The two wells that will be common suction to the compressor are the Day B # 002 and the Day B #012. Each well will retain it's own gas measurement meter. The purpose of this sundry is to notify the BLM that we will be running this flowline across multiple pads, which includes a small area between pads that has been previously disturbed and surveyed. We have had a BLM inspector confirm this prior to submitting this notice.
