Water Shut off

13. Describe Proposed or Completed Operation (clearly state all pertinent details including estimated starting date of any proposed work and approximate duration thereof.

If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths or pertinent markers and sands. Attach the Bond under which the work will performed or provide the Bond No. on file with the BLM/ BIA. Required susequnet reports shqll be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in anew interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notice shall be filed only after all requirements, including reclamatn, have been completed, and the operator has determined that the site is ready for final inspection.)

Devon Energy plans to set a cement retainer over the Lower Dakota interval of the subject well.

The retainer will be set at 7970' and tested for water production. If water production is still unacceptable another retainer will be set above the next interval at 7940' and water production will be tested.

Cement will be pumped under retainer if deemed necessary

CONDITIONS OF APPROVAL

Adhere to previously issued stipulations.
