BLACK HILLS GAS RESOURCES, INC. JICARILLA 29-03-14 #32 PC / FRTC K Section 14 T29N R03W 8/11/2006

API#: 30-039-29429

Commingle Allocation Calculations

OIL

The Basin Fruitland Coal gas pool does not make any oil in the vicinity of the subject well. The East Blanco Pictured Cliffs gas pool does produce a little oil. Therefore, any and all oil will be assigned to the Pictured Cliffs.

GAS

During completion operations in February 2006, stabilized gas tests were taken from both the PC and the FRTC.

The Pictured Cliffs tested at 200 MCF/D during swabbing operations on 2/8/06.

The **Fruitland Coal** tested at 15 MCF/D during frac clean-up operations on 2/14/06.

Total gas = 200+15 = 215 MCF/D.
