Re: San Juan 29-7 Unit #190
I Section 16, T-29-N, R-7-W
30-039-27333

Gentlemen:

Attached is a copy of the allocation for the subject well that was completed 5-31-03. DHC-1223az was issued for this well.

Gas: Fruitland Coal 15%
Pictured Cliffs 85%

Oil: Fruitland Coal 15%
Pictured Cliffs 85%

These percentages are based upon isolated flow test of the Pictured Cliffs and Fruitland Coal during completion operations. Oil was not present during flow test operations. For that reason, oil percentages are based upon gas allocations and are provided in the event this wellbore begins producing oil at some point in the future.

Please let me know if you have any questions.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Peggy Cole'.
