San Juan County, New Mexico

Gentlemen:

The above referenced well is a Mesaverde/Dakota commingle. Attached is a copy of the allocation for the commingling of the subject well completed on May 28, 2002. DHC-668az was issued for this well.

Gas:	Mesa Verde	82%
	Dakota	18%

Oil:	Mesa Verde	82%
	Dakota	18%

The gas percentages are based upon remaining reserves assigned to each formation founded on production from the respective formations before and after the completion of the Mesaverde. This well has not produced any oil therefore; oil percentages are based upon gas allocation and are provided in the event this wellbore begins producing oil at some point in the future. Please let me know if you have any questions.

Sincerely,

A handwritten signature in cursive script, appearing to read "Peggy Cole".
