Re: Allison Unit #6M
SWNW, Section 16, T-32-N, R-6-W
30-045-29809

Gentlemen:

The above referenced well is a Mesaverde/Dakota commingle. Attached is a copy of the allocation for the commingling of the subject well completed on September 14, 2001. DHC-2213 was issued for this well.

Gas: Mesaverde 47%
Dakota 53%

Oil: Mesaverde 47%
Dakota 53%

These percentages are based upon remaining reserves assigned to each formation founded on production from the respective formations before and after the completion of the Dakota. This well has not produced oil. For that reason, oil percentages are based upon the gas allocation and are provided in the event this wellbore begins producing oil at some point in the future. Please let me know if you have any questions.

Sincerely,

Peggy Cole
Regulatory Supervisor
