SUNDRY NOTICES AND REPORTS ON WELLS

Do not use this form for proposals to drill or to re-enter an
abandoned well. Use Form 3160-3 (APD) for such proposals.

SUBMIT IN TRIPLICATE - Other instructions on reverse side.

1. Type of Well
☐ Oil Well ☒ Gas Well ☐ Other

2. Name of Operator

Burlington Resources Oil & Gas

3a. Address

PO BOX 4289 Farmington NM 87401

3b. Phone No. (include area code)

(505) 326-9597

4. Location of Well (Footage, Sec., T., R., M., or Survey Description)

2040 SOUTH 925 WEST
UL: M, Sec: 26, T: 32N, R: 7W

5. Lease Serial No.

NMNM2995

6. If Indian, Allottee or Tribe Name

7. If Unit or CA/Agreement, Name and/or No.

8. Well Name and No.

BURNT MESA 2B

9. API Well No.

30-045-33376

10. Field and Pool, or Exploratory Area

Blanco Mesaverde/Basin Dakota

11. County or Parish, State

SAN JUAN
NM

12. CHECK APPROPRIATE BOX(ES) TO INDICATE NATURE OF NOTICE, REPORT, OR OTHER DATA

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This sundry is to inform the BLM and OCD that this well was left until spring time with the Frac plug in place separating the DK and MV production. When completing the well both the MV and DK intervals were perforated and frac'd (see completion reports). After flowing back the MV interval we RIH to mill out the frac plug and experienced a downhole fire. We successfully pulled out of the hole with the mill and work string, and since it was so close to the winter closure period decided to RIH with tubing and produce well.

We are going to report the production as MV gas until we can evaluate the situation and return in the spring and mill out the frac plug and then commingle the gas. Since we are unable to know the exact condition of the frac plug reporting production this way was the best choice for now and then adjustments may be made when we get back on the well in the spring and see differently. The BLM (Steve Mason) and the OCD (Henry V.) were made aware of the situation.

14. I hereby certify that the foregoing is true and correct
