13. Describe Proposed or Completed Operations

Burlington Resources is requesting the following change on the well design:

We would like to request for the intermediate casing to be 4161' which is 150' into the Menefee instead of 150' in the Lewis. The Cliffhouse formation is wet in this area, and we are plan on air drilling the production string.

14. I hereby certify that the foregoing is true and correct.
