San Juan County, New Mexico

Gentlemen:

The above referenced well is a Chacra/Dakota commingle. Attached is a copy of the allocation for the commingling of the subject well completed on January 21, 2002. DHC-424az was issued for this well.

Gas:	Chacra	90%
	Dakota	10%

Oil:	Chacra	0%
	Dakota	100%

These percentages are based upon reserves assigned to each formation founded on production from the respective formations before and after workover operations. The Chacra formation does not produce any oil; therefore, oil percentages are allocated solely to the Dakota formation. Please let me know if you have any questions.

Sincerely,

Peggy Cole
Regulatory Supervisor
